## The right care.

UnitedHealthcare Community Plan does utilization management (UM). All managed care health plans do. It's how we make sure our members are getting the right care at the right time and in the right place.

A doctor reviews requests when care may not meet guidelines. Decisions are based on care and service, as well as your benefits. We do not reward doctors or staff for denying services. We do not pay anyone for providing less care.

Members and doctors have the right to appeal denials. The denial letter will tell you how to appeal.

 **Questions?** You can talk to our staff. They are available 8 hours a day during normal business hours. If you need to leave a message, someone will call you back. TDD/TTY services and language assistance are available if you need them. Just call **1-800-895-2017, TTY 711**, toll-free.

# Your partner in health.

## How to choose the right PCP.

Your primary care provider (PCP) provides or coordinates your health care. You should see your PCP for well visits, immunizations and important screenings. Your PCP can help you lead a healthier lifestyle by providing tools to help you lose weight or quit smoking.

You want to feel comfortable talking with your PCP. You need a PCP with an office location and hours that work for you. You may want a PCP who speaks your language or understands your culture. You might prefer a male or a female PCP.

Teens have different health care needs than children. It may be time for your teen to switch to a doctor who treats adults. Your daughter may need a woman's health provider such as an OB/GYN.

If your PCP isn't right for you, you can switch at any time. You can learn more about plan providers online or by phone. Information available includes:

- Address and phone number.
- Languages they speak.
- Qualifications.
- Medical school or residency (available by phone only).
- Specialty.
- Board certification.

## By the book.

Have you read your Member Handbook? It is a great source of information. It tells you how to use your plan. It explains:

- Your member rights and responsibilities.
- The benefits and services you have.
- The benefits and services you don't have (exclusions).
- What costs you may have for health care.
- How to find out about network providers.
- How your prescription drug benefits work.
- What to do if you need care when you are out of town.
- When and how you can get care from an out-of-network provider.
- Where, when and how to get primary, after-hours, behavioral health, specialty, hospital and emergency care.
- Our privacy policy.
- What to do if you get a bill.
- How to voice a complaint or appeal a coverage decision.
- How to ask for an interpreter or get other help with language or translation.
- How the plan decides if new treatments or technologies are covered.
- How to report fraud and abuse.

### Get it all.

You can read the Member Handbook online at

**myuhc.com/CommunityPlan.**

Or call Member Services toll-free at **1-800-895-2017, TTY 711**, to request a copy of the handbook.

**Need a new doctor?** To find a new PCP, visit **myuhc.com/CommunityPlan** or use the UnitedHealthcare **Health4Me®** app. Or call us toll-free at **1-800-895-2017, TTY 711**.

# Know your drug benefits.

## Find out more online.

Visit our website at [myuhc.com/CommunityPlan](http://myuhc.com/CommunityPlan) to learn about your prescription drug benefits. It includes information on:

- 1. What drugs are covered.** There is a list of covered drugs. You may need to use a generic drug in place of a brand-name drug.
- 2. Where to get your prescriptions filled.** You can find a pharmacy near you that accepts your plan. You may also be able to get certain drugs by mail.
- 3. Rules that may apply.** Some drugs may only be covered in certain cases. For example, you might need to try a different drug first. (This is called step therapy.) Or you might need approval from UnitedHealthcare to use a drug. (This is called prior authorization.) There may also be limits to the amount you can get of certain drugs.

 **Look it up.** Find information on your drug benefits at [myuhc.com/CommunityPlan](http://myuhc.com/CommunityPlan). Or, call Member Services toll-free at **1-800-895-2017, TTY 711**.

## Prepare to see your provider.

Preparing for your provider's visit can help you get the most out of it. So can making sure your provider knows about all the care you have. Here's how you can take charge of your health care:

- 1. Think about what you want to get out of the visit before you go.** Try to focus on the top 3 things you need help with.
- 2. Tell your provider about any drugs or vitamins you take on a regular basis.** Bring a written list. Or bring the medicine itself with you.
- 3. Tell your provider about other providers you may be seeing.** Include behavioral health providers. Mention any medications or treatment they have prescribed for you. Also bring copies of results of any tests you have had.

## Health equity.

We receive cultural data about you. This may include your race, ethnicity and the language you speak. We use this information to help us meet your health care needs. We may use it to improve the services we provide by:

- Finding gaps in care.
- Helping you in other languages.
- Creating programs that meet your needs.
- Telling your health care providers what language you speak.

We do not use this data to deny coverage or limit benefits. We protect this information. We limit who can see your cultural data. We keep your race, ethnicity and language data safe and secure. Only those who need to use this data have access to it. We guard it using physical, technical and administrative means.

 **Learn more.** Want more information on our health equity programs? Visit [uhc.com/about-us/health-equity](http://uhc.com/about-us/health-equity). You may also call Member Services toll-free at **1-800-895-2017, TTY 711**, for more information.

# Ask Dr. Health E. Hound<sup>®</sup>

## Q: When does my child need to see the PCP?

**A:** It's important to have well-child visits with your child's primary care provider (PCP) on time. These visits may also be called checkups or Early and Periodic Screening, Diagnostic and Treatment (EPSDT) visits. Take your baby for well-child visits at the following ages:

- 3 to 5 days.
- 1 month.
- 2 months.
- 4 months.
- 6 months.
- 9 months.
- 12 months.
- 15 months.
- 18 months.
- 24 months.
- Once a year after 24 months.

At well-child visits, your child's PCP will make sure your child is growing and developing well. Your child will get any tests and vaccines he or she is due for. The PCP will answer your questions about your child's health.

**Beat the rush.** If your child is due for a checkup, call to make an appointment today. Don't wait until the summer, when pediatrician offices are very busy. Bring any school, sports or camp forms you need filled out to the appointment.

## Snack away.

Snacks can be a part of a healthy diet. The right snacks can even help you lose weight. But it's important not to overdo it and to make the right choices. It's best to stick with whole, natural foods. Being aware of serving sizes also helps keep calories in check. Here are some simple snacks that are less than 100 calories:

- 1 hard-boiled egg.
- 1 ounce of cheese.
- 1 cup of berries.
- 1 apple, banana or other medium-size whole fruit.
- 12 almonds.
- 3 tablespoons of hummus with celery.
- 1 cup plain fat-free Greek yogurt.
- 2 cups popcorn with 1 teaspoon butter.

**Know your BMI.** Body mass index (BMI) is a number that tells you if your weight is healthy for your height. Your primary care provider can tell you what your BMI is. Or you can find a BMI calculator online at [cdc.gov/healthyweight/assessing/bmi](https://www.cdc.gov/healthyweight/assessing/bmi).

# We speak your language.

If you speak a language other than English, language assistance services, free of charge, are available to you. We can send you information in other languages or in large print. You can ask for an interpreter. To ask for help, please call **1-800-895-2017, TTY 711**, toll-free. Voicemail is available 24 hours a day, 7 days a week.

Si usted habla otro idioma además del inglés, dispone de servicios de asistencia lingüística gratuitos. Podemos enviarle información en otros idiomas o en letra grande. Puede solicitar un intérprete. Para pedir ayuda, llame a la línea gratuita **1-800-895-2017, TTY 711**. El correo de voz está disponible las 24 horas del día, los 7 días de la semana.

# Top quality.

## Our quality improvement results.

UnitedHealthcare Community Plan has a Quality Improvement program. It works to give members better care and services.

Each year we report how well we are doing. Last year, one of our goals was to increase the number of children who received yearly checkups. We sent members information about how important it is for their children to see their doctor every year for vaccines and screenings. We found that overall in 2018 more children did get these services.

We want to improve even more this year and have more children get lead screenings, vaccinations and yearly checkups. We also want more of our adult members who have diabetes to get their HgbA1c blood tests and retinal eye scans.

We also survey our members each year. We want to see how well we are meeting their needs. Last year we worked on improving how members rate their doctors. We gave our doctors tip sheets on what members like so they could serve them better. Our 2018 surveys showed higher scores in how members rate their doctors.

In the coming year we will continue to work on improving this. We will also work to decrease the time members have to wait when they need care right away. We will also continue to work with our Member Services team to provide members with all of the information they need.
