Healthcare®  
Community Plan

## Protect your health

For the latest information on the COVID-19 vaccine, visit [uhccommunityplan.com/covid-19/vaccine](https://uhccommunityplan.com/covid-19/vaccine).

## We care

We give our providers tools, so they can best care for our members.

These tools are called clinical practice guidelines. They inform providers about best practices to manage illnesses and promote wellness.

The guidelines cover care for a variety of illnesses and conditions like diabetes, high blood pressure and depression. They also give information on how to stay well with proper diet, exercise and recommended vaccines. To see the guidelines, visit [uhcprovider.com/cpg](https://uhcprovider.com/cpg).

# Healthy routine

## Tips for a healthier day

Living a healthy life is not always easy. Big changes in your diet or activity can be difficult to stick to in the long term. Studies show that making small changes to your daily routine can help. Slowly adding healthy actions to your day makes it more likely you will keep doing them.

Looking for ideas? Here are 3 small steps you can take to make your daily routine healthier:

- 1. Take the long way.** Do you regularly use an elevator? Take the stairs instead. Or park in a far spot when you go to work or run errands. This extra exercise adds up.
- 2. Try a soda alternative.** Soda contains a lot of sugar. Studies suggest diet sodas can cause cravings. Sparkling water without artificial sweeteners can scratch the soda itch. Another tasty option is fruit-infused water.
- 3. Don't skip breakfast.** According to the Cleveland Clinic, a healthy breakfast helps fuel your body for the day, improves heart health, lowers diabetes risk and reduces brain fog. Oatmeal, a whole-grain breakfast wrap and cottage cheese with fruit or nuts are all healthy breakfast options. Make what works best with your busy schedule.

**Take care.** It's important to make time to take care of yourself. Visit [healthtalkselfcare.myuhc.com](https://healthtalkselfcare.myuhc.com) to

download a self-care BINGO card. Do a different self-care activity each day until you score BINGO.

## Are you getting enough sleep?

There are many things you can do to try to live a healthier life. Getting enough sleep is one of them. According to the Centers for Disease Control and Prevention (CDC), lack of sleep is linked to some chronic conditions, including:

- Depression
- Obesity
- Heart disease
- Type 2 diabetes

If you have trouble falling asleep at night, here are 3 tips for getting a good night's rest:

- 1.** Go to bed and get up at the same time each day
- 2.** Be active during the day, so you feel tired at night
- 3.** Keep TVs, laptops, tablets and phones out of the bedroom

Learn more about good sleep habits at [cdc.gov/sleep](https://cdc.gov/sleep).

## By the numbers

- Kids ages 6 to 12 need 9 to 12 hours of sleep a night
- Teens ages 13 to 18 need 8 to 10 hours of sleep a night
- Adults need at least 7 hours of sleep a night

# Keeping diabetes under control

## Get regular A1C testing

If you have diabetes, you need to make your health a priority. It takes constant, careful monitoring to keep diabetes under control. Regular testing helps you see how you're doing.

People with diabetes should get an A1C test done 2 to 4 times per year. It's different than testing blood sugar at home. The A1C test requires a blood sample, so it's typically done at a provider's office or lab.

The A1C test shows how well your blood sugar has been controlled over the last 2 to 3 months. The test results are reported as a percentage. The higher the percentage, the higher your blood sugar levels.

What should your A1C be? For most adults with diabetes, the goal is to have an A1C that is less than 7%. For adults without diabetes, A1C is tested during an annual well visit. A normal A1C level is below 5.7%.

## Stay well

### Programs to help manage your health

UnitedHealthcare Community Plan provides programs and services to help keep you well. We also have services to help better manage illnesses and other care needs. These are part of our population health programs. They may include:

- Health education and reminders
- Maternity support and education
- Support for substance use disorders
- Programs to help you with complex health needs (care managers work with your provider and other outside agencies)

These programs are voluntary. They are offered at no cost to you. You can choose to stop any program at any time. You can find more information about our programs and services at [myuhc.com/communityplan/healthwellness](https://myuhc.com/communityplan/healthwellness).

If you want to make a referral to our care management program, call Member Services toll-free at the phone number listed in the resource corner on page 6 of this newsletter.

# Getting care

## Know who to see and where to go

Your primary care provider coordinates your health care. They should see you for all of your preventive care needs, such as well visits, immunizations and screenings. They should also care for you when you are sick. Your primary care provider can provide tools to help you lose weight, quit smoking or lead a healthier lifestyle.

You want to feel comfortable talking with your provider. You may want a provider with an office location and hours that work for you. You may want a provider who speaks your language or understands your culture. You may prefer a male or female provider.

You have a right to change providers in our MO Healthnet Managed Care Plan. You can change your primary care provider at any time during the year. You can learn about plan providers. Information available includes:

- Address and phone number
- Qualifications
- Specialty
- Board certification
- Languages they speak
- Medical school or residency (available by phone only)

istock.com/PeopleImages

If you need to see a provider right away, after-hours care is available at urgent care centers. Or ask your provider if they offer virtual visits.

To find a new provider or look for urgent care center locations near you, visit [connect.werally.com/state-plan-selection/uhc.medicaid/state](https://connect.werally.com/state-plan-selection/uhc.medicaid/state). Or call Member Services toll-free at the phone number listed in the resource corner on page 6 of this newsletter.

## Did you know?

You can call NurseLine to get health advice from a nurse 24 hours a day, 7 days a week. The phone number is listed in the resource corner on page 6 of this newsletter.

## The right care

Utilization management (UM) helps make sure you receive the right care and services when you need them. Our UM staff reviews the services that your provider asks for. They compare the care and services your provider requests against clinical practice guidelines. They also compare what is being asked for against the benefits you have.

When the care is not covered under your benefits or does not meet the guidelines, it may be denied. We do not pay or reward our providers or staff for denying services or approving less care. If care is denied, you and your provider have a right to appeal. The denial letter will tell you how.

**Questions?** Call Member Services toll-free at the phone number listed in the resource corner on page 6 of this newsletter. TDD/TTY services and language assistance are available if you need them.

# Take charge

## Prepare to see your provider

Preparing for your provider's visit can help you get the most out of it. So can making sure your provider knows about all the care you get. Here are 4 ways you can take charge of your health care:

- 1. Think about what you want to get out of the visit before you go.** Focus on the top 3 things you need help with.
- 2. Tell your provider about any drugs or vitamins you take on a regular basis.** Bring a written list. Or bring the actual medicines. Mention who prescribed them for you.
- 3. Tell your provider about other providers you see.** Include behavioral health providers. Bring copies of any test results or treatment plans from other providers.
- 4. If you were in the hospital or emergency room (ER), see your provider as soon as possible after discharge.** Share your discharge instructions with them. Proper follow-up may prevent another hospital admission or visit to the ER.

## By the book

Have you read your Member Handbook? It is a great source of information. It tells you how to use your health plan. It explains:

- Your member rights and responsibilities
- The benefits and services you have
- The benefits and services you don't have (exclusions)
- What costs you may have for health care
- How to find out about network providers
- How your prescription drug benefits work
- What to do if you need care when you are out of town
- When and how you can get care from an out-of-network provider
- Where, when and how to get primary, after-hours, behavioral health, specialty, hospital and emergency care
- Our privacy policy
- What to do if you get a bill
- How to voice a complaint or appeal a coverage decision
- How to ask for an interpreter or get other help with language or translation
- How the plan decides if new treatments or technologies are covered
- How to report fraud and abuse

**Get it all.** You can read the Member Handbook online at [myuhc.com/communityplan/benefitsandcvg](https://myuhc.com/communityplan/benefitsandcvg).

To request a copy of the handbook, call Member Services toll-free at the phone number listed in the resource corner on page 6 of this newsletter.

# Safe and secure

## How we use and protect language and cultural data

We receive information about you. This may include your race, ethnicity, language you speak, gender identity and sexual orientation. This data and other personal information about you is protected health information (PHI). We may share this information with your health care providers as part of treatment, payment and operations in meeting your health care needs.

Examples of how we may use PHI to improve the services we provide include:

- Finding gaps in care
- Helping you in languages other than English
- Creating programs that meet your needs
- Telling your health care providers which language(s) you speak

We do not use this data to deny coverage or limit benefits. We protect this information in the same way we protect all other PHI. Access is restricted to the employees who need to use it. Our buildings and computers are secured. Computer passwords and other system protections keep your data safe.

To find out more about how we protect your cultural data, visit [uhc.com/about-us/rel-collection-and-use](https://uhc.com/about-us/rel-collection-and-use). To get more information on our health equity program, visit [unitedhealthgroup.com/what-we-do/health-equity.html](https://unitedhealthgroup.com/what-we-do/health-equity.html).
