Winter 2022

United
Healthcare®
Community Plan

Your opinion matters

Beginning in March, you may be asked to complete a survey by mail or phone. We want to know how happy you are with UnitedHealthcare Community Plan. If you get a survey, please respond. Your opinion helps us make the health plan better. Your answers will be private.

Exercise ideas

Stay active this winter

We all know exercise is important, but not everyone has the time or money to go to the gym. For a good workout at home, try these simple exercises:

- Classic exercises, such as sit-ups, push-ups, lunges, squats and climbers
- Low-impact weightlifting — if you don't have weights, use everyday objects that are comfortable for you to lift
- Yoga — all you need is a soft mat to sit and lie on

Try an easy at-home workout.
Learn some simple yoga moves at healthtalkyoga.myuhc.com.

Heart smart

Know your cholesterol numbers

Cholesterol is a fatty substance in your blood. HDL is called “good” cholesterol. LDL is the bad kind. Keeping your cholesterol levels healthy is a great way to keep your heart healthy. Having high cholesterol increases your risk for heart disease.

Ask your doctor about the right levels for you. Ideal numbers are based on your gender and heart disease risk factors. People with diabetes need to pay close attention to their LDL levels.

You can control your cholesterol. A healthy diet and exercise can keep it low. Medication can help lower it if it is too high.

Time for a change?

Teens have unique health care needs. Is your teen ready to leave the pediatrician? It may be time to switch to a primary care provider (PCP) who treats adults. Your daughter may need a woman’s health provider such as an OB/GYN.

We can help your teen choose the right provider. Visit myuhc.com/communityplan or call Member Services toll-free at **1-800-414-9025**, TTY/PA Relay **711**.

Stay on schedule

Now is the time to catch up on shots

One side effect of the COVID-19 pandemic is that many children did not see their primary care providers (PCPs) to get their scheduled vaccines. This means more children are now at risk for diseases that can be prevented by vaccines.

Talk to your child’s provider about which vaccines your child needs. If your child has fallen behind schedule with their shots, it is not too late to make up the ones they missed. Staying on schedule with vaccinations protects your child as well as others from getting sick.

From birth to age 18, it is recommended that your child receive multiple doses of the vaccines for:

- Hepatitis B
- Rotavirus
- Diphtheria, tetanus, pertussis
- Haemophilus influenzae type b
- Polio
- Pneumococcal disease
- Hepatitis A
- Measles, mumps, rubella
- Chickenpox
- HPV
- Meningococcal disease
- Influenza

Quitting time

By quitting smoking, you can feel better and improve your overall health. You can also save money for things that matter.

Quitting is not always easy, but resources are available to help. Types of support that make quitting easier include:

- Getting advice from a provider
- Talking to a counselor
- Following an action plan
- Using nicotine replacement products

If you are ready to be smoke free, we are here to help you. The Pennsylvania Tobacco QuitLine is a telephone hotline that can help with quitting tobacco. You can call **1-800-QUIT-NOW (784-8669)**, TTY/PA Relay **711**, or visit pa.quitlogix.org to get support for quitting tobacco.

Checking in

Questions to ask at your annual wellness visit

Is it time to schedule your annual wellness visit or your child's EPSDT screening visit? It's important to check in with your provider and get recommended preventive care every year.

Asking questions can help you get the most out of your visit. Here are some questions you may want to ask your provider:

- Which vaccines do I need? When should I get a flu shot? When should I get the COVID-19 vaccine?
- Which screenings or medical tests do I need?
- Does my family history raise my risk for any health problems?
- What are some steps you think I should take to stay healthy?
- How should I contact you if I have any questions after this visit?

Time for a checkup. Need to find a new provider? We can help. Visit myuhc.com/communityplan and search the provider directory.

Have a healthy pregnancy

Tips for expectant mothers

If you are pregnant, it's important to take care of yourself to keep both you and your baby healthy. Here are 4 tips for expectant mothers.

- 1. Keep all prenatal appointments with your provider.** Start seeing your provider as soon as you suspect you are pregnant and then once a month during weeks 4 to 28 of your pregnancy. Then go every 2 weeks from weeks 28 to 36. For the last month, see your provider every week.
- 2. Take prenatal vitamins.** They help your baby grow healthy and strong. Read the label and make sure your prenatal vitamin has folic acid, iron, calcium and a B vitamin in it.
- 3. Keep moving.** Exercise is always important, but especially during pregnancy. It can help lower stress, strengthen muscles and reduce fatigue. Daily walks are an easy way to keep moving.
- 4. Connect with available resources to support your pregnancy.** Sign up for our Healthy First Steps® program today to start earning rewards for having a healthy pregnancy. Visit **uhhealthyfirststeps.com** to enroll after your first provider appointment. Or call **1-800-599-5985,** TTY/PA Relay **711,** for more information.

UnitedHealthcare Community Plan complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, creed, religious affiliation, ancestry, sex gender, gender identity or expression, or sexual orientation.

UnitedHealthcare Community Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, creed, religious affiliation, ancestry, sex gender, gender identity or expression, or sexual orientation.

UnitedHealthcare Community Plan provides free aids and services to people with disabilities to communicate effectively with us, such as:

- Qualified sign language interpreters
- Written information in other formats (large print, audio, accessible electronic formats, other formats)

UnitedHealthcare Community Plan provides free language services to people whose primary language is not English, such as:

- Qualified interpreters
- Information written in other languages

If you need these services, contact UnitedHealthcare Community Plan at **1-800-414-9025**, TTY/PA RELAY **711**.

If you believe that UnitedHealthcare Community Plan has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, creed, religious affiliation, ancestry, sex gender, gender identity or expression, or sexual orientation, you can file a complaint with:

UnitedHealthcare Community Plan
